

Soft Skills Overview

Module 1: Professional Mindset

Module 2 - Communication Fundamentals

Module 3 - Teamwork & Collaboration

Module 4 - Critical Thinking & Problem Solving

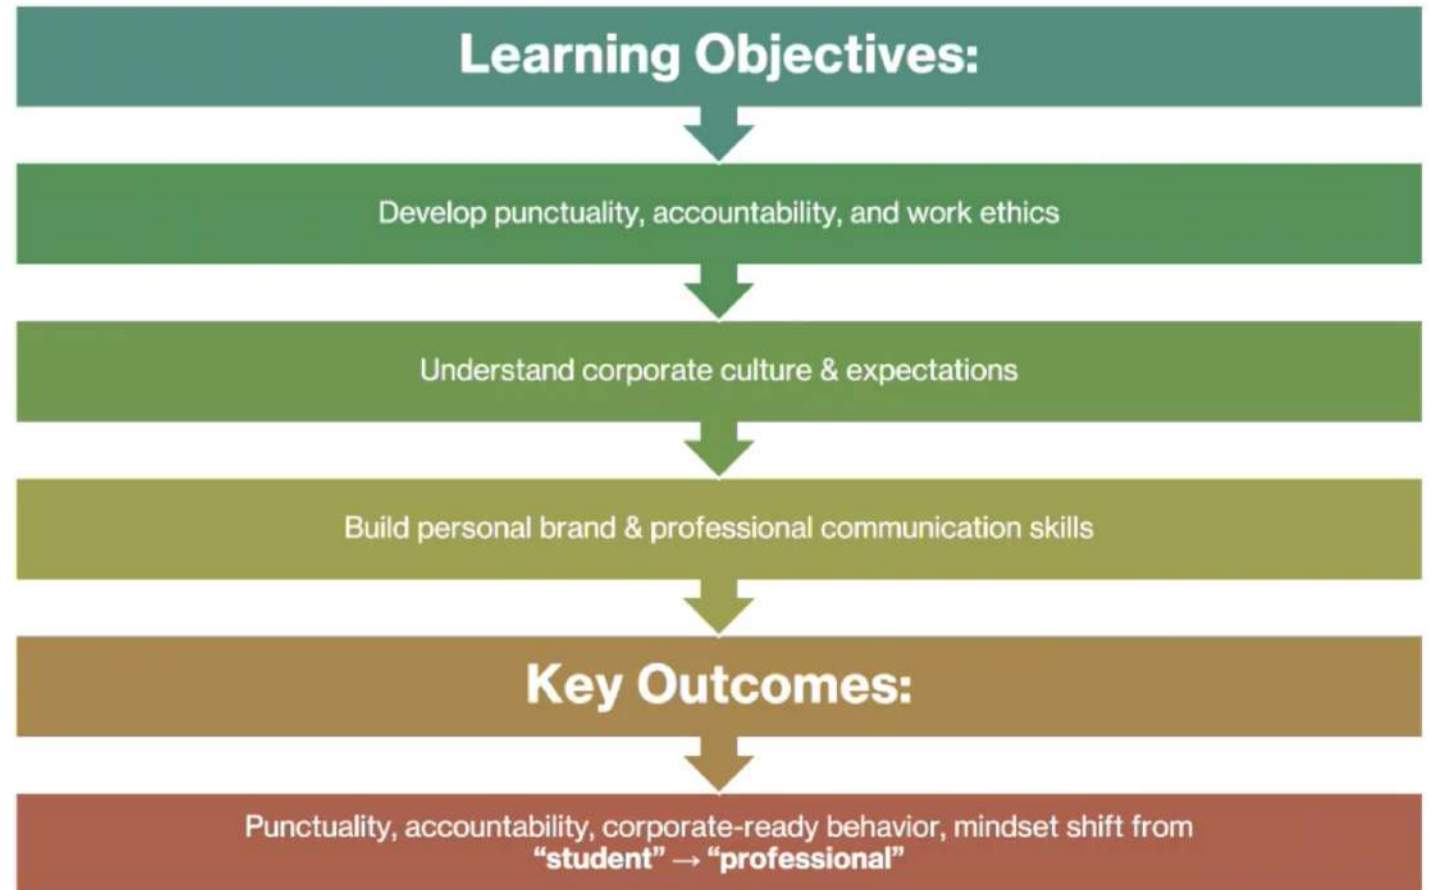

Module 5 - Design Thinking & Innovation

Module 6 - Emotional Intelligence & Stress Management

Professional Mindset

Professional Basics

Punctuality

- Being on time is not just about the clock – it's about respecting other people's time, energy, and trust.

Ownership

- It means saying “this is my responsibility” – not because someone told you to, but because you also care about the outcome.

Confidentiality

- Confidentiality means knowing which information stays private and not sharing it casually.

Professional Basics

Dress & virtual etiquette

- How you present yourself – offline or online – signals your seriousness, attention to detail, and respect for the workplace.

Proactivity

- Not waiting for instructions every time, but thinking two steps ahead and acting before problems escalate.

Accountability

- Owning both your success and your mistakes. It's saying, "I messed up, here's how I'll fix it," instead of blaming.

OBJECTIVES

- 01 Why Communication matters in tech careers
- 02 7Cs of effective Communication
- 03 Types of communication: verbal, non-verbal, written.
- 04 Active listening and the Ladder Technique
- 05 The art of questioning- open vs closed
- 06 Star Method
- 07 Elevator Pitch formula

Why Communication Matters

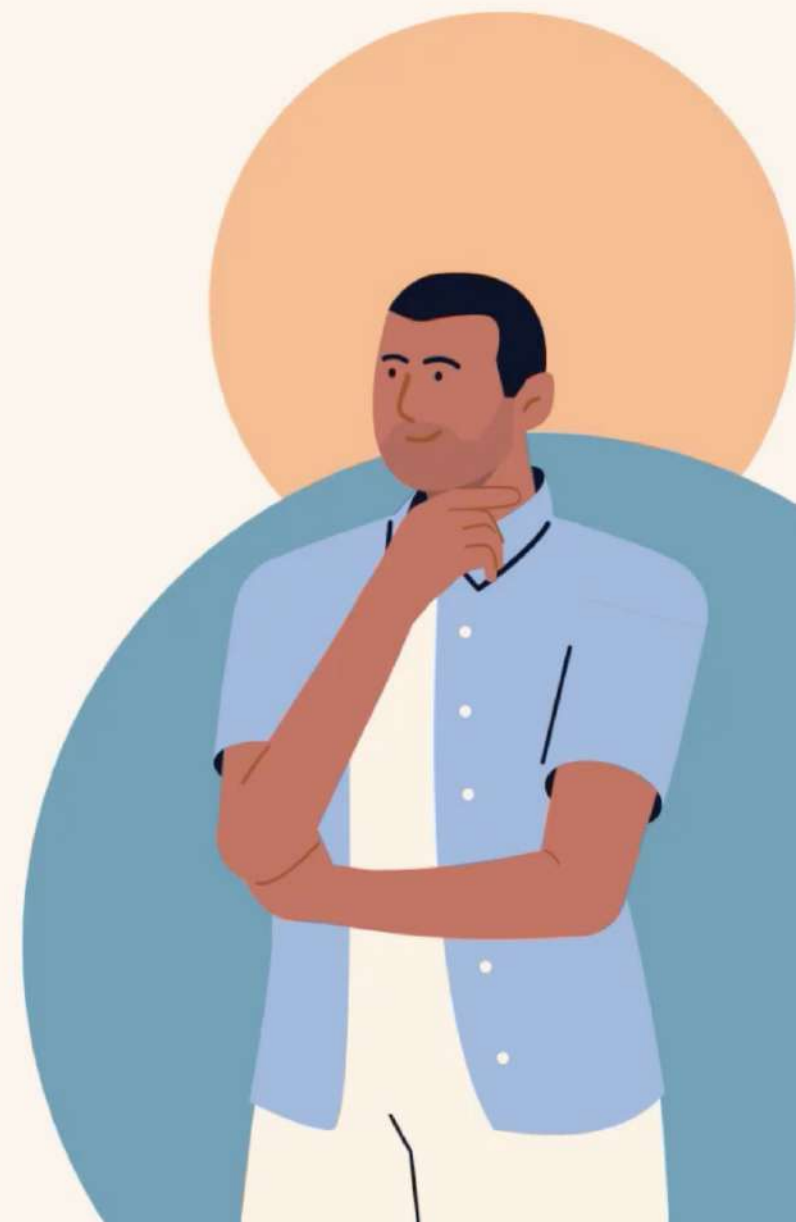

Fact: 50–70% of rejections in tech interviews = poor communication.

The 7Cs of Effective Communication

- **Clear**
- **Concise**
- **Concrete**
- **Correct**
- **Coherent**
- **Complete**
- **Courteous**

7Cs of EC

1. Clear

Avoid jargon, complex language, or ambiguous terms that may lead to confusion.

Hi John,
I would like to schedule a meeting with you
in regards to yesterday's conversation.
The topics you covered were great, and I'd
like to speak about them in detail. Please
let me know when you would like to have
this meet.
Regards
Chris

Hi John,
I would like to schedule a meeting with
you in regards to your presentation on
email marketing. The topics you covered
were great, and I would like to discuss
implementation on our current clients.
Please let me know when you have the
time so that we can discuss it in detail.
Regards
Chris

2. Concise

Focus on conveying the essential information without overwhelming the audience with irrelevant information.

Dear Bari,

I wanted to talk about the video editing ideas we sort of planned out the other day. Don't you think it would make a lot of sense to also add additional elements to the videos? I mean, I think that would sort of improve the quality of the videos as well as have a stronger impact on the client's message. For instance, we could add a dissolve transition to each movie, which would then give it a seamless flow. This would then make the video cleaner and be more appealing in the minds of the people. The impact would just be a lot greater. This makes a lot more sense according to me. What do you think?

Regards

Alex

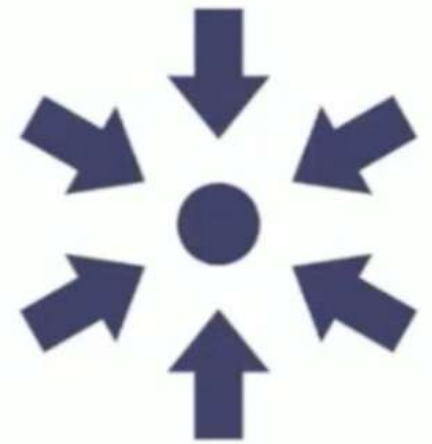

Hi Bari,

I'd like to discuss our video editing plans from the other day. Considering the client's message, I propose adding dissolve transitions to create a seamless flow. This would improve video quality and enhance overall impact. What are your thoughts?

Best
Alex

3. Concrete

Providing details and examples can help the audience better grasp the meaning and intent of your communication.

"We should increase efficiency in our operations."

"To improve operational efficiency, each department should conduct a workflow analysis, identify specific bottlenecks, and implement targeted process improvements."

4. Correct

Ensure that your communication is grammatically correct, free from spelling errors, and follows proper punctuation and formatting.

Hi Sam,

make sure you proofread everything!

It was wonderful meeting you last week. I had a good time.
I'm sure we will be able to do some great work on this project.
Let me know weather you need any supplies from the company
and I'll get them delivered as soon as possible. Thanks again,
speak to you soon!

Regards
Desmond

5. Consideration

Tailor your message to your audience, taking into account their knowledge level, expectations, and any cultural or contextual factors that may influence how they interpret the information.

Announcing layoffs without addressing employee concerns or providing support.

Employees feel disregarded or neglected!

"Due to organizational changes, some positions will be affected. We understand this may be difficult, and we are offering counseling services and financial support during this transition."

6. Complete

Provide all the necessary information for the audience to understand the message fully.

Include relevant details and address potential questions or concerns.

Hi Guys,

Please make sure to carry all the items tomorrow for the meeting.

Regards
Jay

*what items, which meeting,
where, and at what time???*

questions or concerns.

Hi Guys,

Please make sure to carry all the items tomorrow for the meeting.

Regards

Jay

Hi Guys,

Just a reminder that we have a meeting scheduled at 10:00 am tomorrow at conference room 304 to discuss the Britannia event. Please make sure you get all the event props that need to be presented to the client.

Regards

Jay

*what items, which meeting,
where, and at what time???*

7. Courtesy

Maintain a polite and respectful tone in your communication. Being courteous fosters a positive relationship between the sender and the receiver.

Dear Tom,

I have noticed that there are always delays in the orders. You need to focus on the orders department as a priority. Please get all the orders cleared ASAP!

Regards
Sam

*Creating a toxic environment
rather than solving any issues!*

Dear Tom,

I have noticed that there are always delays in the orders. You need to focus on the orders department as a priority. Please get all the orders cleared ASAP!

Sam

*Creating a toxic environment
rather than solving any issues!*

Dear Tom,

Thank you for your work at the book fair. I have noticed that there are orders pending which need to be cleared on priority. I would appreciate it if you could focus on getting these cleared so that we can avoid any delays to the customer. Thanks a lot, and please let me know if you have any questions or concerns.

Regards
Sam

Types of Communication

- Verbal: Tone, clarity, pauses
- Non-Verbal: Eye contact, body language
- Written: Emails, resumes

Example 1:

hi sir

i am ramesh i want job in your company pls check my resume attached.

thank you

Example 2:

Subject: Application for Software Developer Role – Suresh

Dear Hiring Manager,

I am writing to apply for the Software Developer position at your company.
With 2 years of experience in backend development and strong skills in Java and Python,
I believe I can contribute effectively to your team.

Attached is my resume for your review.
Thank you for your time and consideration.

Best regards,
Suresh

Active Listening (LADDER Technique)

Look interested

Ask questions

Don't interrupt

Don't change subject suddenly

Empathize

Respond appropriately

The Art of Questioning

- Closed Questions (Yes/No): Quick answers
- Open Questions (Why/How): Explore deeply
- Probing Questions → Dig for details

Game: Guess the Object

STAR Method (Interview Storytelling)

STAR = Situation – Task – Action – Result

Example:

Q: “Tell me about a challenge you solved”

A: “During project X (Situation), I had to reduce errors (Task). I automated the testing (Action), and we cut bugs by 30% (Result).”

[Star Method](#)

Elevator Pitch Formula

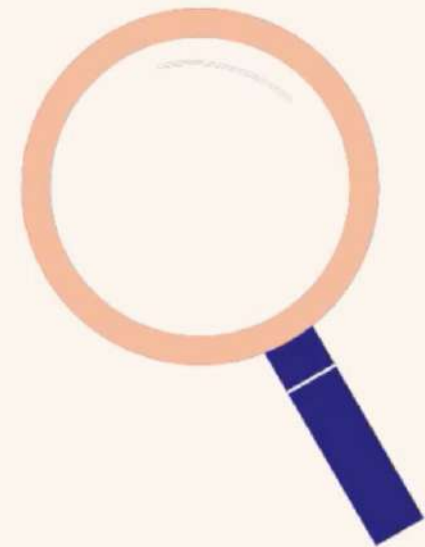

Formula = Who you are + What you do + Why it matters

Example: "I am Kiran, a final year MCA student specializing in full-stack. I love solving problems through code and recently built an app that reduced processing time by 40%."

[Elevator Pitch](#)

The Rule of 3 (Secret of Great Speakers)

- Humans remember things in 3s.
- Example: Life, Liberty, and Happiness.
- Use 3 points → not 5, not 7.
