

Teamwork & Collaboration

Learning Objectives:

01

Understand what teamwork & collaboration mean in professional settings.

02

Learn core frameworks for teamwork (TEAM, RACE, CARE, 5Cs).

03

Practice collaboration in large groups with clear sub-roles.

04

Experience conflict resolution & leadership dynamics.

05

Reflect on personal teamwork style.

What is Teamwork?

Do you prefer working
alone or in a team?

What do you mean by
Teamwork...?

Teamwork isn't just about
working together—it's
about *winning together*

Why Teamwork is Hard?

Teamwork sounds great...right?

But do you all feel it's also little messy...?

- Conflicts → Who leads? Whose idea wins?
- Free riders → Yes, the *silent investors*!
- Miscommunication → Like when your class WhatsApp group explodes with 100 messages and still no clarity.

Conflicts & Collaboration

Conflicts are not bad.

- **Why conflicts happen:**
 - Different priorities (speed vs. quality)
 - Different working styles (structured vs. flexible)
 - Resource constraints (time, budget, people)
- **Healthy conflict resolution tips:**
 - **Listen first, respond later.** Don't interrupt.
 - **Focus on issues, not people.** Attack the problem, not the teammate.
 - **Seek common ground.** Ask: *"What do we both agree on?"*
 - **Compromise and commit.** Once decided, the whole team supports the decision.
- **Key Learning:**
 - Disagreement is normal — silence is worse than conflict.
 - The mission is always bigger than the ego.
 - Great teams don't avoid conflict; they **transform it into collaboration.**

Core Frameworks for Teamwork

TEAM Framework (foundation)

Core Frameworks for Teamwork

RACE Framework (execution)

Core Frameworks for Teamwork

CARE Framework (conflict resolution)

01

Clarify

Identify the real cause of the conflict by digging beyond surface-level disagreements.

02

Acknowledge

Recognize and validate the feelings of everyone involved, even if you don't agree with their viewpoint.

03

Resolve

Collaboratively explore solutions that satisfy all parties as much as possible

04

Empower

Strengthen future collaboration by setting commitments, rebuilding trust, and creating accountability.

Core Frameworks for Teamwork

CARE Framework (conflict resolution)

 C

01

Clarify

Identify the real cause of the conflict by digging beyond surface-level disagreements.

 A

02

Acknowledge

Recognize and validate the feelings of everyone involved, even if you don't agree with their viewpoint.

 R

03

Resolve

Collaboratively explore solutions that satisfy all parties as much as possible

 E

04

Empower

Strengthen future collaboration by setting commitments, rebuilding trust, and creating accountability.

5 Cs of Teamwork (summary)

Clarity

Communication

Commitment

Collaboration

Celebration.

Activity: App Design Challenge

- Imagine you're a company designing an app for college students.
- I'll divide you into **breakout rooms**. Each room = 1 company.

Inside your company, break into **5 sub-teams (2-3 members each)**:

- **Features** – What the app does
- **User Experience (UX)** – How it looks & feels
- **Marketing Strategy** – How you'll promote it
- **Revenue Model** – How it earns money
- **Team Values & Collaboration** – How your team will work together
